## A CREATIVE TEACHING METHODS

**Education is the key to unlocking the world, a passport to freedom.**

**Mrs. Komal Shah**  
Principal (9904415333)

At SEVEN STEPS SCHOOL, we recognize that social/emotional development is as essential to student success as academics. Teachers provide a nurturing environment in which young adolescents can learn, take risks, and thrive. Activities for the school year will evolve from our school theme – Transforming Education, Transforming Lives. Our caring and committed teachers are our pillars of strength. They teach our children not just with their minds but with their hearts.

The aim of education should be to teach us rather how to think, than what to think — rather to improve our minds, so as to enable us to think for ourselves, than to load the memory with thoughts of other men. Our distinctive academic programs and innovative teaching methodologies encourage students to develop critical thinking and learn through inquiry and reason.

A holistic approach to teaching and learning is important for the physical, emotional, intellectual, creative, spiritual and social well-being of children, and to develop them as well-rounded individuals. At SEVEN STEPS SCHOOL, we lay emphasis on experiential and exploratory methods of learning, well beyond the classroom, as well as espouse the appreciation and practice of our school's values and attributes.

We constantly ensure that holistic approaches to teaching and learning are achieved in multiple ways - ongoing review of curriculum, introduction of new subjects, the breadth of sports and co-curricular activities, and the regular upgrading of infrastructural facilities and resources.

In the classroom, students present their work by way of presentations, role plays, small skits and impromptu debates. The lessons are explained practically for long term knowledge of students. The students have many out-of-classroom activities and experiences such as karate, dance, yoga & meditation, skating, chess and many more. Community service encourages children to understand the challenges faced by the less-privileged and sensitizes them to the importance of being compassionate.
